The Commission met with Sam Thompson at the Pounder Building, 1208 Commerce. She discussed the upcoming tenant improvements at Cafe Guse. She is proposing hexagon tile at the entrances to the three street level tenants. Her proposal would be for the tiles to be black and white. Options are for the addresses, Pounder Building or Cafe Guse, depending on costs. Porcelain was suggested as an alternative material. Freshing up the paint in the apron area and replacement options for the sconces on the top of the building were discussed. No further action was taken.

Russ Strobel, with a second from Nat Light, made a motion to support the grant application for more CLG funds. This passed unanimously.
