24-0083 **NICHOLS BLVD PROJECT REVIEW**

Morgan Palmer shared his memo. The City received funding in December 2023. If bike lanes are not included in this project, funding might vary. Morgan will verify how the project was presented in our application for funding. The overall consensus was to go with Option B. Morgan will share this info with our consultant. An option for the Maple Street area to become additional parking was discussed. This was well received. Improvements to slow travel off Ocean Beach Highway onto Nichols could include being made by adding a turn lane and more of a curve onto Nichols. The traffic flow doesn't currently justify the double turn lane from Nichols onto Ocean Beach Highway. This will also include a WSDOT approval.

7. **OLD BUSINESS**

24-0084 PROJECT UPDATES

Washington Way project is in construction phase. It was awarded to Advanced Excavating Specialists. A preconstruction meeting will be scheduled next month with work to start in April or May. Beech Street Bike Lane project bids came in over budget. We have revised the plans and take it back out to bid with paint instead of plastic for striping. It is planned to go out for bid in February.

8. REPORTS**9. BOARD MEMBER COMMENTS**

Rail to Trail is coming back to Council as a presentation this Thursday. Early Birds Lions has volunteered to do maintenance.

10. EDUCATION TOPIC**24-0087 MUTCD CHANGES <https://www.npr.org/2023/12/31/1222174861/road-street-design-traffic-mutcd>**

This was an article shared by Ruth Kendall.
